ASHFIELD DISTRICT COUNCIL

TOWN AND COUNTRY PLANNING GENERAL DEVELOPMENT ORDER, 1977 AS AMENDED

PROPOSED ARTICLE 4 DIRECTION Land at Westwood Farm, Main Road, Jacksdale

1. Description of site area:

The site in question involves a substantial pocket of land situated between the settlement of Westwood to the east, and the village of Jacksdale to the north and west. The land is abutted by existing residential development on much of these three boundaries.

The land in question is entirely included within the Nottinghamshire County Council Green Belt Local Plan Area.

The land comprises a substantial agricultural holding, in respect of which it is considered that any form of agricultural building development should be strictly controlled.

Such control is considered necessary because of the potential damaging impact of any agricultural building on existing and proposed residential development. It is considered that any such buildings would be likely to adversely affect the amenities of existing residents in the locality.

2. Grounds on which the Authority consider that the Direction is needed

The Local Planning Authority are of the opinion that the erection of intensive livestock buildings within the area are a possibility. The site owner has in fact submitted proposals for this type of development elsewhere in the Ashfield District Council area. It is the opinion of the Local Planning Authority that adequate essential means of control should exist to ensure that full consideration can be given to the implications of any such buildings.

Class VI of the 1st Schedule of the Town and Country Planning General Development Order 1977, gives permitted development rights to the erection of agricultural buildings, and it is felt that in this particular case, such buildings could possibly have an adverse impact on the amenities of adjacent residential properties.

The landowner has advised the Authority that it is his intention to use permitted development rights in order to erect such buildings.
